Table 3 was rendered incorrectly, please see the corrected table below.

**Table 3. Clinical and analytical characteristics of patients.**

CASES	AGE	VARIANT	STAGE	M.O.+	LDH	LEUKOCYTOSIS	MIDI
CASE 1	66	Classic	IVA	YES	157	7700	6 HIGH
CASE 2	67	Blastoid	IVB	YES	522	14000	7 HIGH
CASE 3	50	Classic	IIA	NO	150	5000	3 LOW
CASE 4	67	Blastoid	IIIA	NO	287	16000	7 HIGH
CASE 5	73	Blastoid	IVA	YES	156	17000	7 HIGH
CASE 6	50	Classic	IVA	YES	253	44000	6 HIGH
CASE 7	72	Classic	IIA	NO	229	10000	7 HIGH

On page 7, the line “• R-CHOP x six cycles, followed by rituximab (R) maintenance [14]” was repeated three times, whereas it should have only appeared once.

In Table 4: “CYCLINE D1”, should be “Cyclin D1” and “REORDERING”, should be “TRANSLOCATION”.

On page 5, “However, it is difficult to determine whether this is primary gastric (extranodal) mantle cell lymphoma with a lymphomatoid polyposis pattern or a secondary infiltration of the intestinal mucosa by a nodal mantle cell lymphoma.” should be “However, it is difficult to determine whether this is primary intestinal (extranodal) mantle cell lymphoma with a lymphomatoid polyposis pattern or a secondary infiltration of the intestinal mucosa by a nodal mantle cell lymphoma.”

On Page 8, “norblastoid variant” should be “non-blastoid variant”.
